**Introducing The Aquatics Academy!**

Here are just a few of the aspects of our swim programs that distinguish us from others...

**Small class ratios!** Only two swim-students per instructor means highly individualized instruction, and faster progress! Only two classes in the pool at a time.

**Quality programming!** We offer many different levels of Red Cross certified aquatics programs, never the one-size- fits-all approach. Each student will be carefully evaluated to ensure we are providing them the best programming possible.

**Exceptionally Talented Instructors!** Our instructors are extremely carefully screened, mature professionals, with many years experience in teaching. They have been hand-picked for their attributes in nurturing, patience, and expertise in teaching! Experience the difference!

**Balance!** We carefully tailor our programs to meet the needs of various ages and levels of ability, perfectly balancing learning, with safety, and fun! Our instructors are warm, friendly, and particularly talented in working with the younger, more timid swimmers.

**Warm comfortable pools!** Our indoor pools are maintained between 84 and 86 degrees, keeping swimmers comfortable year-round! Warm, unintimidating environments make learning fun for all ages.
